

Hi David,

Thanks for taking the time to speak with me. I look forward to future contact.

So, I am 37 years old, 6'3, 215 pounds, in shape, sandy blonde very short hair, blue eyes, and light skinned. I have a relaxed but manly personality, and understand the needs of women quite well. I am a great listener and sympathizer (when needed) and love to cater to women to make them feel special emotionally and physically. I have been told I am very attentive socially and in bed...I love giving body massages and catering to a woman's physical needs. I have been told OFTEN that I give great oral sex, and I almost always give women orgasms when I do it. I understand the anatomy and physiology of the female orgasm, clitoral as well as g-spot, and how they are interdependent on a woman's emotional state. I would much rather satisfy a woman than myself. My sister is a doctor, so I do have a Viagra prescription, which can come in handy and enables multiple sessions for me if needed.

My background...I have Bachelor's degrees in Biology Pre-Med and Psychology (University of Texas at Austin), a Master's in Public Health (Texas College of Osteopathic Medicine in Ft. Worth), and am a PhD candidate at the University of North Texas in Denton in Information Science and Technology with a track in Medical Informatics.

I am divorced, have 2 boys (7 and 9), and can often make my own hours for work. The reason I moved to Moncks Corner from Dallas, Texas (talk about culture shock) is b/c my ex-wife grew up here and moved back here with the boys after our divorce. We have dual custody and each get the boys 3.5 days per week, but she has primary residence, so when she decided to move them here, I followed. Boys need a dad, and it is my responsibility to be there for them.

I own my own company that designs, builds, and maintains corporate networks and I work with about 30 companies in the tri-county area. If you want some more insight, please visit my personal website at <http://www.russell2112.com> and my business website at <http://www.cygnusinfosys.com> .

I am attaching a few pictures so you can put a face with my name. You can see that I am obviously kind of hamming it up in a few of them, but that is my personality...I like to laugh and have fun. I also coach soccer at the YMCA here in Moncks Corner, though I am taking his fall off...those pics are in the pdf file.

I hope to hear from you soon and wish you a wonderful day.

Thank you very much for this opportunity.

Please let me know that you received this email.

Have a great day!!!
